Summary

As a transfer student to Harvard University from the University of Utah and a graduate of a Full-stack Web Development program, I present myself as a strong candidate for a Software Engineer role. Proficient in both front-end and back-end development, with a solid foundation in technologies like REACT, JavaScript/NodeJS, Python, and Java, I am poised to make meaningful contributions to software development projects. My problem-solving aptitude, demonstrated academic excellence with a 3.9 GPA, and dedication to enhancing my skill set underscore my potential to excel within a software engineering team. I am enthusiastic about the prospect of leveraging my knowledge to drive innovation and success in the field.

Skills

JavaScript · HTML/CSS · React
